CONTENTS OF HEREDITAS, VOLUME 131:1–3 (1999)

221 Alonso, M., Fujiwara, A., Yamaha, E., Kimura, S. and Abe, S.
Ribosomal RNA gene loci and silver-stained nucleolar organizer regions associated with heterochromatin in Alaskan char *Salvelinus malma* and chum salmon *Oncorhynchus keta*.

1 Alvarez, L. and Almeida, E.J.C.
Comparative karyotypic analysis of two land-planarian species from Brazil: *Geoplana burmeisteri* and *Geoplana carinata* (Tricladida, Terricola).

253 Ashraf, M. and Ahmad, S.
Exploitation of intra-specific genetic variation for improvement of salt (NaCl) tolerance in upland cotton (*Gossypium hirsutum* L.).

33 Beilis, A., Rahn, I.M., Gonzalez Moreno, M.C., Loureiro, J. and Merani, M.S.
Mitotic and meiotic analysis in *Arctocephalus australis* (Otariidae).

109 Bothmer, R. von, Salomon, B. and Linde-Laursen, I.
Chromosome pairing patterns in interspecific *Hordeum lechleri* × *H. vulgare* (cultivated barley) hybrids with 2n = 21-29.

239 Brinch-Pedersen, H., Olsen, O., Knudsen, S.O. and Holm, P.B.
An evaluation of feed-back insensitive aspartate kinase as a selectable marker for barley (*Hordeum vulgare* L.) transformation.

79 Cabrero, J., Shapiro, L.H. and Camacho, J.P.M.
Male sterility in interspecific meadow katydid hybrids.

5 Dávila, J.A., Loarce, Y., Ramsay, L., Waugh, R. and Ferrer, E.
Comparison of RAMP and SSR markers for the study of wild barley genetic diversity.

83 Díaz, O., Salomon, B. and Bothmer, R. von
Absence of genetic variation in Scandinavian populations of *Elymus mutabilis* (Drob.) Tzvel. (Poaceae).

63 Díaz, O., Salomon, B. and Bothmer, R. von
Genetic diversity and structure in populations of *Elymus caninus* (L.) L. (Poaceae).

93 Fernández Iriarte, P.J., Levy, E., Devincenzi, D., Rodríguez, C., Fanara, J.J. and Hasson, E.
Temporal and spatial variation of inversion polymorphism in two natural populations of *Drosophila buzzatii*.

101 Grieco, M.L. and Bidau, C.J.
Chiasma frequency and distribution in males and females of *Metaleptea brevicornis adspersa* (Acridinae, Acrididae) with and without B chromosomes.

203 Isoherranen, E., Aspi, J. and Hoikkala, A.
Inheritance of species differences in female receptivity and song requirement between *Drosophila virilis* and *D. montana*.

39 Klungland, H., Rœd, K.H., Nesbø, C.L., Jakobsen, K.S. and Våge, D.I.
The melanocyte-stimulating hormone receptor (*MC1-R*) gene as a tool in evolutionary studies of Artiodactyles.

171 Koskinen, M.T. and Primmer, C.R.
Cross-species amplification of salmonid microsatellites which reveal polymorphism in European and Arctic grayling, Salmonidae: *Thymallus* spp.

121 Lang, N.T., Subudhi, P.K., Virmani, S.S., Brar, D.S., Khush, G.S., Li, Z. and Huang, N.
Development of PCR-based markers for thermosensitive genetic male sterility gene *tms3*(t) in rice (*Oryza sativa* L.).

87 Leonova, J. and Hanson, C.
A study of 45.X/46.XX mosaicism in Turner syndrome females: A novel primer pair for the $(CAG)_n$ repeat within the androgen receptor gene.

247 Linde-Laursen, I. and Seberg, O.
The karyotype of *Elymus mendocinus* (Poaceae: Triticeae) from Argentina studied by banding techniques.

75 Liu, B., Piao, H., Zhao, F., Zhao, J., Liu, Z. and Huang, B.
DNA methylation changes in rice induced by *Zizania latifolia* (Griseb.) DNA introgression.

197 Lorite, P., Garcia, M.F., Carrillo, J.A. and Palomeque, T.
Restriction endonuclease chromosome banding in *Tapinoma nigerrimum* (Hymenoptera, Formicidae).

47 Manabe, M., Ino, T., Kasaya, M., Takumi, S., Mori, N., Ohtsuka, I. and Nakamura, C.
Segregation distortion through female gametophytes in interspecific hybrids of tetraploid wheat as revealed by RAPD analysis.

185 Mandrioli, M., Ganassi, S., Bizzaro, D. and Manicardi, G.C.
Cytogenetic analysis of the holocentric chromosomes of the aphid *Schizaphis graminum*.

147 Mola, L.M., Papeschi, A.G. and Taboada Carrillo, E.
Cytogenetics of seven species of dragonflies: A novel sex chromosome determining system in *Micrathyria ungulata*.

15 Pellegrino, K.C.M., Rodrigues, M.T. and Yonenaga-Yassuda, Y.
Chromosomal evolution in the Brazilian lizards of genus *Leposoma* (Squamata, Gymnophthalmidae) from Amazon and Atlantic rain forests: banding patterns and FISH of telomeric sequences.

55 Petitpierre, E.
The cytogenetics and cytotaxonomy of *Chrysolina* Mots. and *Oreina* Chevr. (Coleoptera, Chrysomelidae, Chrysomelinae).

165 Petersen, B.L., Møller, M.G., Jensen, P.E. and Henningsen, K.W.
Identification of the *Xan-g* gene and expression of the Mg-chelatase encoding genes *Xan-f*, *-g* and *-h* in mutant and wild type barley (*Hordeum vulgare* L.).

177 Pettersson, T.M., Lefkovitch, L.P. and Giles, B.E.
The effect of the sterilising anther-smut fungus *Microbotryum violaceum* on the genetic composition of *Silene dioica* populations.

143 Rowland, R.E. and Harding, K.M.
Increased sister chromatid exchange in the peripheral blood lymphocytes of young women who smoke cigarettes.

135 Silva, A.P.Z., Haddad, C.F.B. and Kasahara, S.
Nucleolus organizer regions in *Physalaemus cuvieri* (Anura, Leptodactylidae), with evidence of a unique case of Ag-NOR variability.

211 Silva M. J. J. and Yonenaga-Yassuda, Y.
Autosomal and sex chromosomal polymorphisms with multiple rearrangements and a new karyotype in the genus *Rhipidomys* (Sigmodontinae, Rodentia).

23 Solis, R., Takumi, S., Mori, N. and Nakamura, C.
Ac-mediated *trans*-activation of the *Ds* element in rice (*Oryza sativa* L.) cells as revealed by GUS assay.

155 Sørensen, J.G., Michalak, P., Justesen, J. and Loeschcke, V.
Expression of the heat-shock protein HSP70 in *Drosophila buzzatii* lines selected for thermal resistance.

129 Uslu, E., Reader, S.M. and Miller, T.E.
Characterization of *Dasypyrum villosum* (L.) Candargy chromosomes by fluorescent in situ hybridization.

191 Valkonen, S., Hietala, M., Savontaus, M.-L. and Aula, P.
Origin of Finnish mutations causing aspartylglucosaminuria.

227 Walker, L.I., Rojas, M., Flores, S., Spotorno, Á. and Manríquez, G.
Genomic compatibility between two phyllotine rodent species evaluated through their hybrids.
